TITLE INDEX

A non-parametric analysis of variable cost minimization in the United States paper industry, 839
A re-examination of the structure of unemployment, 493
A real target model of wage inflation with variable union power: the UK experience 1962–1984, 1103
A structural model of the demand for new cars in Belgium, 669
Adult equivalence scales and the size distribution of income, 1611
An econometric investigation of export behaviour in seven Asian developing countries, 891
An empirical investigation of interregional production relations and comparative advantage in US manufacturing, 1960–70, 823
An empirical investigation of lawn mower safety regulations, 795
An estimation of market efficiency in the NFL point-spread betting market, 117
An index number framework for explaining changes in input productivity – an application to energy efficiency, 775
Another look at the rationality of the Livingston price expectations data, 477
Application of normal income to metropolitan housing demand: an econometric analysis, 1675
Application of the time-varying parameter model to the Q theory of investment, 97
Are monetary services indexes superior to conventional monetary aggregates as intermediate targets?, 1751
Are product- and process-innovations independent of each other?, 1029
Are purchased information services underused in manufacturing? Evidence from Japan, Korea and Taiwan, 201
Australian monetary growth and short-term nominal interest rates: an interest parity, efficient markets approach, 1119
Automobile safety inspection: further econometric evidence, 1697

Balance of care considerations for elderly persons: dependency, placement and opportunity costs, 1167

Causality between money, interest rates and prices in Taiwan: a multivariate time-series analysis, 1739
City objectives in monopoly franchising: the case of cable television, 1237
Cointegration tests of purchasing power parity among four industrial countries: results for fixed and flexible rates, 1729
Commodity prices, financial markets and world income: a structural rational expectations model, 509
Concentration changes and large-firm/small-firm efficiency differences; evidence from US manufacturing industries, 131
Consistent estimation of a disequilibrium model of primary commodity price adjustment, 1417
Cost-of-living indexes and demographic change, 739
Criminal behaviour and youth in the labour market: the case of the pernicious minimum wage, 1495
Currency substitution, financial innovations and money demand: a note, 1591
Current account deficits and long-term interest rates: is there a risk premium?, 1323
Curve fitting versus hypothesis testing with production functions: comment on Grabowski and Belbase, 1
Curve fitting versus hypothesis testing: a comment, 427

Determinants of charitable donations by families in Canada: a regional analysis, 285
Discounting forecast errors, 1039
Disentangling the effect of arthritis on earnings: a simultaneous estimate of wage rates and hours worked, 1291
Do corporations sell houses for less? A test of housing market efficiency, 1389
Does anticipated monetary policy matter? More evidence, 111
Domestic pricing under import threat, 221
Dynamic factor demands and market structure under rational expectations: some estimates for the Italian manufacturing system, 1377
Dynamic reserve adjustment under exchange rate flexibility, 995

Economic information about ironmaking, 1335
Economic valuation of underground water and man-induced land subsidence in aquaculture, 31
Economies of scale in the US savings and loan industry: 1973–83, 237
Effect of housing stock inflation on homeowner expenditure patterns, 1685
Efficiency in the commercial banking industry, a production frontier approach, 539

Establishment size, job satisfaction and the structure work, 1007
Estimating the consumption block of the HERMES models: an application to the Netherlands, 1149
Exchange rate sensitivity of demand for money and effectiveness of fiscal and monetary policies, 917

Factors underlying displacement: an analysis of Finnish regional incentive policy using data on assisted firms, 617
Financial innovation and demand for money: some empirical evidence, 1437
Financial innovation, deposit deregulation, and the US M1-GNP, 1525
Fiscal deepening versus financial underdevelopment: which accounts for the payments problems?, 687
Fixed investment and the technological gap in the United Kingdom, 905

Government size and economic growth: the African experience, 1960–85, 1427
Grouping durable goods, 759
Growth: some combined cross-sectional and time series evidence from OECD countries, 1197

Hospital care inflation in the United States: price adjustments in a disequilibrium econometric framework, 1567
Hospital efficiency and indigent care, 1597
How effective is automobile safety regulation?, 1705

Impacts of US monetary policies on the farm sector: an econometric analysis, 1451
Income, taxes and employer pension contributions, 639
Industrial incentives, domestic resource costs and resource allocation in Madagascar, 805
Industry risk factors and the implications for diversification within Northern Ireland regional economy, 301
Inflationary expectations with heterogenous information: 'generational expectations', 1267
International comparisons of macroeconomic performance, 261
Investment fact and fancy in Yugoslavia, 45

KLEM substitutability: a dynamic flexible demand system, 275

Labour mobility of minorities versus majorities – theory and application, 1229
Logistic regression and probability of default of developing countries debt, 1649

Manufacturers' expectations of prices and quantities: New Zealand experience, 1964–87, 579
Measuring market power in multi-product oligopolies: the US meat industry, 1365
Military experience and training effects on civilian wages, 69
Modelling cost structure: the Bell system revisited, 1661
Monetary regimes and money supply endogeneity, 1355
Monetary targetting in The Netherlands: an application of co-integration tests, 1537
Money and inflation: the case of western developed countries, 1960–80, 863
Money, income and prices in Singapore reconsidered, 653
Money supply and prices in Indonesia 1969–1980: an econometric investigation, 1479

Nominal versus real adjustment in demand for money functions, 5

On cream skimming, coase and the sustainability of natural monopolies, 487
On the choice of functional form for hedonic price functions, 431
On unit roots and real exchange rates: empirical evidence and Monte Carlo analysis, 1311
Optimal pricing of the Portuguese telephone service, 211

Part-time work and returning to work after the birth of the first child, 1137
Preferences for unemployment versus inflation, 347
Price discrimination in 'top' scientific journals, 1127
Price rigidity, inflation and market concentration: some Canadian evidence from the 1970s, 1625
Production efficiency of British building societies, 415
Production functions in cricket: the Australian and New Zealand experience, 871

Real wage determination in Bangladesh agriculture: an econometric investigation, 1549
Regional differences in personal savings, 933
Reservation wages and unemployment in manufacturing: a case study, 403

School-leaver unemployment: a proactive approach, 439
Search efficiency, skill transferability and immigrant relative unemployment rates in Australia, 249

Sectoral interdependence in the Chinese economy in comparative perspective, 1063
Sectoral shifts and aggregate unemployment: additional empirical evidence, 331
Some efficient tests of international real interest rate parity, 1083
Starting even? Job mobility and the wage gap between young single males and females, 723
Structural change in UK industry 1975–85, 1443

Technology and health expenditures: a demand approach applied to a process innovation, 1277
Testing alternative hypotheses in economic history, 1509
Testing for stationarity and co-integration: an application to Saudi-Arabian monetary data, 1577
Testing for symmetry in OPEC official price reaction to the spot price in tight and weak market conditions, 605
Testing neoclassical consumer theory with aggregate and household data, 1471
The behaviour of Athens stock prices, 1715
The decision to strike as a decision to allocate time, 1249
The decline in residential electricity consumption in England and Wales, 59
The demand for inputs in the traditional manufacturing region, 961
The determinants of small-firm growth in US manufacturing, 143
The differential impact of world prices and exchange rates on food imports: an econometric analysis for Peru, 569
The duration of unemployment; stocks and flows on regional labour markets in The Netherlands, 155
The effect of MADD on drinking-driving activities: an empirical study, 1215
The efficiency of used vehicle markets: the case of technological obsolescence and differential repair records, 1205
The forecasting approach to efficiency in the wool market, 973
The Harrod foreign trade multiplier revisited, 711
The incentives to capital in the UK Enterprise Zones, 387
The Kalman filter approach for testing structural change in the demand for alcoholic beverages in the US, 1407
The market structure of estate agents industry in the 1980s: an empirical investigation, 629
The policy implications of deflationary tax cuts, 719
The post-quota performance of dairy farms in England and Wales, 1399
The relationship between unions and job satisfaction, 1635
The relationships of AFDC payments and employment structure on the labour force participation and underemployment rates of single mothers, 1870
The stock split and dividend effect: information or price pressure?, 927
The value of time hypothesis and the demand for money: some new evidence for the UK, 599
The value of time and the effect of fines on child car safety seat usage, 463
The value of youth: equalizing age differentials in marriages, 359
The wage effects of the strike: a selectivity bias approach, 375
Time to re-establishment of equilibrium for a group of redundant workers, 83
Transition intensities in the Dutch labour market 1980–85, 1043

Unemployment in OECD countries: an empirical test of the wage gap hypothesis, 881
Unit costs: some explanations of the differences between UK universities, 853
US bilateral trade equations: forecasts and structural stability, 1093
Using VAT to reduce the federal deficit; the consequences for US trade, 179

Valueing non-market wildlife commodities: an evaluation and comparison of benefits and costs, 13
Verdoorn's and Kaldor's law in tax administration: an international analysis, 529
Voluntary divestitures and corporate life-cycle: some empirical evidence, 1181

Wage inflation process for manual and non-manual occupations, 947
Wage leadership in Canadian industry, 553
Wage rigidity in the United States: the role of price expectations, 1019
Willingness to pay measures and expectations: an experiment, 313
